

SUMMER SCHOOL

HEALTH & MIGRATION

Is it your ambition to become a medical student with a worldly vision, or are you fascinated by health care all across the globe? Then we've got your holiday all figured out!

This year we are pleased to announce that we are hosting the 9th edition of Summer School 'Health & Migration' in Ghent.

Within this 11-day course we offer you a wide range of interesting and contemporary topics such as migration, brain drain, human rights, spread of diseases ... Not only is this a great opportunity to discover and learn more about these exciting subjects, it's also the ideal occasion to meet new people from different cultures and backgrounds.

Last but not least you will get to see our beautiful country and taste our delicious chocolate and famous beers during our social activities. We hope to welcome you this summer to one of the greatest weeks you'll ever have!
